

The Pouch or Medicine Bag

Instructions

1. Remove the kit contents from the package
2. Place the circle-shaped leather piece on a flat surface
3. Take the one (1) part of leather lace in one hand and insert it into one of the 24 holes
4. Feed the leather lace through all of the holes until it comes through the other end. Two ends of the lace should be free on each side of the pouch

OPTIONAL STEPS

1. If you have beads you can add them on to one end of the lace.
2. Once you have added three or four of your favourite colour beads, tie a small knot on the end to make sure they stay in place.

Materials

- 1 pc leather (circular, perforated around edges)
 - 1pc leather lace
 - Decorative beads (optional)
-
